Dear Margaret:

Much longer ago than I like to realize, I agreed to give you such material as I have developed regarding your family in my research. I am pleased to enclose my best efforts.

As you are aware, I have been primarily involved in searching out my own direct blood lines. Of course, you and I share Ira and John Winter and I have surveyed the following Winter families from various sources. I have essentially nothing relating to the lines of the wives of the several generations as is evident from the "Pedigree Chart". I understand that Marjorie Forbes has developed material that may well supplement my data in this respect.

I have included the Pedigree Chart mentioned above as well as Family Group Record sheets for a number of generations, and a typed sheet of material obtained in my research applicable to your family. The forms are widely used in Genealogy research. I find the Family Group Record data most interesting. To date, I have filled in 27 sheets for myself. They do not include three of those enclosed herewith, namely for Charles Douglas, Arthur Blaine and Albert Wesley since none of them are in my direct line; George Hurani was my grandfather as we have discussed.

The numbers in parentheses are those shown on the Pedigree Chart. The formula provides that
